## 1. Introduction

Welcome to the **Rebrand and Reselling – Complete Guide**, crafted by **MercGen AI** to help you transform ready-made digital products into your own money-making brand. Whether you're reselling an app, a SaaS, or any digital solution, this guide walks you through the entire process – from naming and logos to pricing and positioning.

---

## 2. What Is Rebranding & Reselling?

**Rebranding** is the process of giving an existing product a new identity – including its name, design, website, and messaging.

**Reselling** means taking a product (often white-labeled) and marketing it under your own brand to generate revenue.

With platforms like MercGen AI, you get pre-built Web Apps, Mobile Apps, and SaaS-ready solutions that are designed for easy rebranding and high resale potential.

---

## 3. Why Rebrand? Why Resell?

- **Save Time & Money:** Skip months of development by starting with a done-for-you solution.
- **Own Your Brand:** Position yourself as the founder of a unique product.
- **Profit Faster:** Focus on marketing and sales, not coding.

- **Scalability:** Sell to one, ten, or thousands with no additional effort.
- 

## 4. Choosing the Right Product to Rebrand

Not all products are made equal. Choose one that:

- Solves a real-world problem
- Has clear monetization options
- Is visually attractive and easy to use
- Comes with complete documentation (as MercGen AI provides)

Explore the MercGen AI marketplace to find top-tier apps built for rebranding:

## 5. How to Rebrand Your App or Business

### Name, Logo & Branding Assets

- Choose a name that aligns with your niche or market.
- Create or outsource a **logo** using Canva or Looka.
- Choose a color palette and font system for consistency.

### Domain & Website

- Secure a relevant **.com** domain.
- Use your MercGen AI-provided **landing page** and blog to start fast.
- Customize with your branding and SEO keywords.

## App Store Listings (for Mobile Apps)

- Change the app name, icon, screenshots, and description.
- Use keyword-rich titles and subtitles to rank better.
- Ensure your developer account is set up (Google Play + App Store).

## In-App Customization

- Update colors, splash screen, logos, and default text.
  - Use any available admin panel or CMS to change settings.
  - Test everything before going live.
- 

# 6. Setting Up Reselling Funnels

## Audience & Positioning

- Decide who your target buyer is.
- Position your product as **exclusive**, **AI-powered**, or **niche-specific**.
- Create a unique selling proposition (USP).

## Website & Landing Pages

- Use the included sales page or build one with Elementor, Webflow, or Carrd.
- Include testimonials, screenshots, and benefits.
- Add a lead capture form or direct checkout.

## Pricing Strategies

- Subscription vs. One-time fee

- Tiered pricing (Basic, Pro, Agency)
  - Early bird or beta pricing
  - Bundle with other MercGen AI products
- 

## 7. Legal & Licensing Considerations

Before reselling:

- Check the license from MercGen AI (all products come with resell rights unless noted).
  - Add Terms of Service and Privacy Policy to your website.
  - Protect your brand name with a trademark if needed.
- 

## 8. Smart Monetization Models

- **Subscription plans** (monthly/annual)
  - **One-time access**
  - **Freemium + paid upgrades**
  - **White-label to agencies**
  - **Bundle with services** (e.g., setup or customizations)
- 

## 9. Using MercGen AI to Scale

MercGen AI isn't just your starting point – it's your growth engine:

- ✓ Ready-to-rebrand digital products
- ✓ Complete documentation and support

- ✓ Growth playbooks for SEO, ASO, email, and social media
- ✓ Automated customer support chatbot

Explore all your tools: <https://mercgen.ai>

---

## 10. Final Tips for Long-Term Success

- **Focus on one niche** at a time.
  - Build an **email list** and use the included Email Marketing guide.
  - **Keep improving the branding** over time.
  - Use the **AI Chatbot Support guide** to automate your customer service.
  - Be patient – viral growth happens when everything aligns.
- 

## 11. Conclusion

Rebranding and reselling isn't just a hustle – it's a business model. With the right product, design, positioning, and monetization strategy, you can build a brand that prints revenue while you sleep. And with **MercGen AI**, you're never building alone.
